

First Announcement
Soil Gases in Environmental and Geological Processes
International Conference

Soil Gases
in Environmental &
Geological Processes

Date: 6th November, 2026

Venue: 45 Budaörsi Road, HUN-REN Research Centre for Astronomy and Earth Sciences, H-1112 Budapest, Hungary

We are pleased to announce an international conference focusing on the role and significance of soil gases in environmental and geological systems.

The conference aims to bring together researchers, professionals, and students working in the following fields:

- H₂ and natural analogues
- CCS monitoring systems
- Radon in soil gases
- Agricultural aspects of soil gases
- Microbiological processes related to soil gases
- Soil gas studies associated with the carbon cycle
- Nitrogen and sulphur in soil gases
- Anthropogenic gases in soil

We welcome both oral and PICO presentations. Online participation is also available, however, online registrants may present only in exceptional cases.

Keynote speaker:

Orlando Vaselli (University of Florence)

Registration Fees

Category	Early registration	Late registration
Regular	60 EUR	70 EUR
Student	35 EUR	40 EUR
Online	10 EUR	10 EUR

Abstract submission and early registration deadline:

30th September 2026

Organizing Institutions

- HUN-REN CSFK Geographical Institute
- Hungarian Geological Society
- HUN-REN Institute of Earth Physics and Space Science (EPSS)
- HUN-REN Centre for Agricultural Research (ATK)
- HUN-REN Centre for Energy Research (EK-EC)
- MS Energy Solutions Kft.

Further details (including abstract submission guidelines and important deadlines) will be announced soon.

We look forward to welcoming you to Budapest!

On behalf of the Organizing Committee:

Csilla Király – Chair of the Organizing Committee

Csaba Szabó – Chair of the Scientific Committee
